

# Reading Abbey

Name:.....

Name some different rooms or areas in Reading Abbey and what you think they were used for or happened in them:

Area	What happened here? What was it used for?

## Design your abbey

Now Imagine Henry I has asked YOU to design an abbey for him.

Before you begin plan the different parts you would include and what their role would be.

If my abbey was built, the main materials used would

be.....

Because: .....

Area	Purpose - what would it be used for what would happen here

## **Draw your abbey**

Draw a plan of your abbey. It doesn't have to be the same as Reading Abbey. Make sure you include all of the important areas and label them.

## Sounds of the abbey

Now think about the sounds you may hear in different parts of your abbey. Add your ideas to the table below.

Area Name	Sounds

Using body rhythms see if you can create sounds to use for each part of the Abbey. Come up with some shapes or symbols for these sounds. Add them to your Abbey plan to help you to remember the sounds you have created.
